## Practice Water Conservation This Summer

In the summer, daily water use almost triples in the Comox Valley. Let's do our part to save water. Switch to micro/drip irrigation for your garden and plants; they deliver water directly to your plants' roots, reducing runoff and overall water usage.

Every drop counts! For more information on smart control irrigation systems, water leak and soil improvement rebates, and tips to reduce your household or property's water consumption, visit: [comoxvalleyrd.ca/conservation](https://comoxvalleyrd.ca/conservation)
