

Hudson Trunk Project Construction

News Bulletin #2
March 2018

The new Hudson Trunk regional sewer line is an important improvement for the sustainability of the Comox Valley Regional District's sewer service. It will directly connect neighbourhoods in northeast Courtenay to the sewage treatment plant (the Comox Valley Water Pollution Control Centre) on Brent Road. This will reduce flow through the existing Courtenay Pump Station, creating more capacity for future growth in the community.

Construction along Idiens Way and Aspen Road begins

With good progress made so far on the Hudson Trunk sewer line project, construction work will move to the Idiens Way area as of mid-March. Construction will start on Dryden, just east of Anderton, then continue west along Idiens, before moving onto Aspen in late March/early April. Construction on Knight Road will also begin in late March, and on Parry Place in April.

Intermittent alternating one-way traffic should be expected through April.

Given the weather we experienced through January and early February, the project team decided to change its original construction plan to first work on the right-of-ways at Hudson, Dryden and off Parry Place, and then proceed to Idiens, Parry, Aspen and Knight Road. This decision was made to avoid work in residential/high traffic areas during the worst of the wet weather, and to reduce the impact on area residents and vehicle traffic accessing the airport.

We're glad to say construction is still expected to be complete in early May 2018. Thank you for your continued patience through this important work.

Construction along Parry Place

Route Map

The map below shows the route of construction and upcoming work.

What's to Come

Below is a general construction schedule for the remainder of the project. This schedule is a rough guideline and may be changed without notice. Updates or changes will be shared on the project's webpage at www.comoxvalleyrd.ca/hudsontrunk.

Area	Dates
Idiens Way/Dryden	Mid March – Mid April
Aspen Road	Late March – Mid-April
Parry Place	Mid/Late April
Knight Road	Late March – Late April

Knight Road and Resident Access

Construction on the Knight Road section of the project is expected to begin in late March. Access for local residents and businesses will be maintained, but drivers wishing to access the Comox Valley Airport will be encouraged to use alternate routes (Ryan Road/Military Row or Pritchard Road). Traffic control will be on hand to minimize impact. Please watch for signage.

This news bulletin is produced by the Comox Valley Regional District (CVRD) and will be released as needed.
